RARE, UNUSUAL AND ODD GERANIUMS

<u>CACTUS OR POINSETTIA FLOWERED</u>	
These are often called cactus or poinsettia flowered geraniums. Petals are long and narrow, sometime straight sometimes twisted and rolled. This group will make an interesting addition to your collection.	
STARLET - Double, glowing rose-salmon	.75¢
STAR OF PERSIA - Double, deep crimson-purple.....	.75¢
NOEL - Double, pure white.....	.50¢
PINK POINSETTIA - soft rose-pink	.50¢
POINSETTIA - Double, brilliant red.....	.50¢
HULDA CONN - Double salmon	.75¢
SOUTHERN CROSS - Large double deep coral	.75¢
MORNING STAR - Soft double salmon	.75¢
SILVER STARS - Large single, pure white.....	.50¢
RED SPIDER - Single Intense scarlet.....	.75¢

<u>NEW LIFE GERANIUMS</u>	
(A very old group of geraniums introduced in 1868)	
NEW LIFE - (Stars and Stripes) Double red & white twisted florets	.50¢
SINGLE NEW LIFE - (Peppermint stick) Individual scar- let flowers are penciled, flecked or striped with white.....	.50¢
NEW LIFE PHLOX - Light pink with a salmon or coral center	.50¢
VESUVIUS - Single scarlet. The original variety from which this group developed. Compact free flowering as the other varieties.....	.50¢

<u>ROSEBUD VARIETIES</u>	
The Rosebuds are the most beautiful of the novelties. The florets are extremely double, tiny rosettes which never open wide, so they resemble clusters of tiny half opened roses.	
APPLEBLOSSOM - White edged with rose.....	.50¢
MAGENTA ROSEBUD - Cerise-red rather than Magenta....	.50¢
PINK ROSEBUD * Actually light rose-red, reverse lighter.....	.50¢
SCARLET ROSEBUD - Brilliant scarlet	.50¢
COOK'S SCARLET & WHITE ROSEBUD (Cook 1962) Brilliant scarlet with the reverse of petals nearly white	1.50

<u>BIRD'S EGG</u>	
A very popular collectors item, yet fine geraniums even without the novelty of petals being speckled with tiny carmen dots like those found on a bird's egg. Very free blooming.....	
SINGLE CRISE - Beautiful but speckles don't show well	.75¢
SINGLE ROSE PINK - Excellent flower with good speckles	.75¢
SINGLE CORAL - Large flowered with good speckles ...	.75¢
SINGLE LIGHT PINK - Speckles show up very well	.75¢
DOUBLE LAVENDER-PINK - Well speckled even though dou- ble.....	.75¢

CARNATION FLOWERED

Notched or serrated petals characterize this group, which resemble carnations, Sweet Williams or Pinks.

Mme. THIBAUT - Single white petals turning pink...	.50¢
JEANNE - Single salmon with deeply notched petals.	.50¢
CERISE CARNATION - Double large flowered cerise...	.75¢

OTHER NOVELTIES

MR. WREN - Single scarlet with white edge. The novelty of the flowers is the appearance of the petals, which look as though the scarlet had been laid on with a narrow brush in three or four strokes each ending at a different length on the white.....	.50¢
FRAICHEUR - Double white with narrow margin of red on the outer edge of petals.....	.50¢
CARMEL - A picotte type, single white with narrow margin of bright red.....	.50¢
WILL ROGERS - Enormous flowers of a vivid purple - crimson, probably better described as the darkest red possible in geraniums so far..	.50¢
LIGHT PAINTED LADY - Single white with narrow rose-red margin. Much like Carmel but the flowers are a little larger and more consistent in color, and the plant is more reliable.....	.75¢
DAHLIA FLOWERED - Very double clear scarlet-red each floret is size of half a dollar with over 35 small petals with slight white eye that does not shatter.....	.75¢
PHLOX - (Bright Eye) - Single, white on very light pink with half of each floret bright pink or very light red.....	.50¢
NEW PHLOX - Single, white with an eye of soft shade of reddish-pink with a darker zone. At times the white will have a suffusion and veining of pink.....	.50¢
NEW PHLOX (Miller) - Entirely different from the above variety called New Phlox. This is one of the best of the phlox varieties. Single, white with bright vermilion eye in the center. At times the white will have a suffusion and veining of pink.....	.50¢
PHLOX NO 1 - Single, white on very light pink a lighter eye than Bright eyes but same type of plant	.50¢
PHLOX NO 2 - Single light pink with a salmon coral center. Strong compact, free flowering plant much larger wood than New Life Phlox but blooms identical.....	.75¢
NEW LIFE PHLOX - See New Life varieties.....	.50¢
TWEEDLEDEE - A cross of p. Acetosum and Black Vesuvius which has produced a plant with small stems and attractive dark-green foliage. The single flowers are salmon narrow petaled and only a few to a head but borne in profusion. The spidery flowers and dark graceful plant makes a very pleasing combination.....	.75¢
TWEEDLEDUM - Almost identical with Tweedledee but foliage is darker and flowers deeper salmon	.75¢
CANADIAN PINK & WHITE - Double, white with a distinct rose-red margin slightly taller than Fraicheur.....	.50¢

OTHER UNUSUAL, ODD AND RARE VARIETIES

The zonal and Ivy crosses and Species varieties.

SPECIES PELARGONIUMS

A very interesting group are garden hybrids of wild species varieties. Most of them have kept the basic feature of wild varieties, yet are acclimated to garden culture.	
P. DARK BEAUTY - Small nicely lobed, dark green leaves with large black zone. Single orange salmon flowers	.50¢
P. FULGIDUM - (Old scarlet unique) - Large grey green leaves with soft deeply cut foliage, single bright red flowers.....	.50¢

(continued)

SPECIES PELARGONIUMS

P. ECHINATUM - (The sweetheart geranium) Small orchid like flowers have heart shaped maroon blotches grey foliage fleshy stems are thick and have spines also called the cactus geranium.....	.75¢
P. STAPELTONI - (Red sweetheart Geranium) - Many years ago P. Echinatum was crossed with P. Saepeflorens to get this lovely variety. Very similar to P. Echinatum but flowers are a beautiful deep reddish pink.....	1.00
P. GIBBOSUM - (Knotted Stork's Bill) Odd stems that are swelled at joints with yellow green scented flowers.....	.75¢
P. SCANDENS - Huge lavender blooms, narrow dark ring with crimped edge leaves climbing.....	.50¢
P. ASCETOSUM - Silver green scalloped cuped leaves, narrow petaled fluffy salmon pink blooms.	.50¢
P. FRUTETORUM - Dark green foliage zoned beautiful, bright salmon single flowers.....	.50¢
P. RUFIFORME - Much branched wiry slender stems small furry leaves. Small single bright purple-rose blooms	.50¢
P. TETRAGONUM - Climbing fleshy, jointed stems, pink blooms	.50¢
P. JATROPHAFFOLIUM - Fern like, deeply lobed, leaves, small white and light pink flowers.....	.75¢

HYBRID IVY-LEAVED

P. Peltatum - P. Hortorum

Most of this group are not crosses of such simple origin. This group is typified by richly colored flowers, most of which have a waxy appearance that is very popular today. Good either as pot plants or hanging baskets.	
ALLIANCE - Double, light orchid pink with cerise blotches similar to those found in ivy-leaved ...	.75¢
PINK ALLIANCE - A bright pink version of Alliance	.50¢
SCARLET BEAUTY - Semi-double, vivid scarlet flowers.....	.50¢
E. H. TREGO - Enormous double flowers of intense red	.50¢
IRMA - Small double, salmon apricot, white center.	.50¢
MEMORIES - Semi-double, very large pale orchid flowers.....	.50¢
INDIANAPOLIS PINK - Double large rose-pink white center.....	.75¢

Fancy-Leaved Zonals

The Fancy-leaved Geraniums are those varieties of Zonals which have unusual coloring on their leaves and unusual markings as well. The markings vary from dainty borders of white to brilliant combinations of yellow, scarlet, crimson and brown. These varieties are grown mainly for their attractive foliage although some varieties have fairly good flowers.

SILVER-LEAVED

SILVER-LEAF - S. A. Nutt - Irregular green & white double dark red blooms.....	.75¢
ATTRACTION - Grey-green center with white edge...	.50¢
MARY ANN - Slightly silvered, bright green leaves with an unusually wide irregular border of ivory, single scarlet flowers.....	.50

EARLIANA - (Supply limited) Orchid variegated purple and violet.....	.75¢

SCENTED-LEAVED GERANIUMS

The Scented-Leaved Geraniums are gaining in popularity every year. They make excellent window pot and garden plants, wonderful foliage for corsages, very pleasing and interesting foliage for flower arrangements, or give you a very pleasant scent or aroma for your home or garden, also their use for spicing and cooking is increasing each year.

<u>LEMON-ROSE</u>	
Most "Rose Geraniums" actually have more of a lemon-rose fragrance than real roses. The term "Rose-Scented" comes from the use of a few varieties for the production of geranium oil. All Rose Geraniums have lavender blooms and deeply cut foliage	
LADY PLYMOUTH - (Variegated Rose) - Excellent light yellow plant with healthy appearance. Probably the most popular scented geranium.....	.60¢
CROWFOOT - P. radens - Very deeply cut, bluish grey foliage, lavender flowers.....	.50¢
OLD FASHIONED ROSE - P. graveolens - Ancestor of many scented and probably the best known of all. Deeply cut, grey-green foliage on a tall bushy plant used for flavoring jams and jellies	.50¢
SILVER LEAF ROSE - (Grey Lady Plymouth) P. graveolens Marginalis almost equal in growth with its green form, Old Fashioned Rose, grey leaves with narrow white edge.....	.50¢
SNOWFLAKE - P. adicifolium - An irregular variegated form of Round Leaf Rose, splashed with yellow.....	.50¢
CAPITATUM - P. capitatum - Round ruffled leaf..	.50¢
ATTAR OF ROSES - P. capitatum - Compact mound of light green tri-lobed leaves.....	.50¢
CAMPHOR ROSE - P. graveolens camphorum - Identical to Attar of Roses	.50¢
ROBER'S LEMON ROSE - P. graveolens - Deeply cut, large, grey-green foliage.....	.50¢
ROUND LEAF ROSE - P. adicifolium - Round, slightly lobed, light green foliage, semiprostrate plant.	.50¢
GIANT ROSE - P. graveolens giganteum - Same as Round Leaf Rose except on a larger plant.....	.50¢
GRAVES STAGHORN ROSE - P. graveolens - Similar to Rober's but larger plant with wider leaf	

(continued)	<u>LEMON-ROSE</u>
margins around ribs.....	.50¢
LITTLE GEM - P. terebinthinaceum - Tri-lobing of leaf, very marked with finer divisions light green leaf, compact low plant.....	.50¢
RED FLOWERED ROSE - P. graveolens - Deeply cut leaf; very crinkly when small. Compact plant. Bright cerise-rose flowers	.50¢

<u>OAK-LEAF</u>	
The following forms of P. quercifolium or Oak-leaved are all pungent scented and have many uses for which they are unsurpassed. All have rosy lavender flowers.	
TRAILING OAK - (Prostrate Oak) Low spreading skirt small dark leaves	.50¢
SKELTONS UNIQUE - Rangy, prostrate plant similar to Trailing Oak, with a dark centered less cut leaf.....	.50¢
SHARP TOOTHED OAK - Sharpley toothed leaf ...	.50¢
STAGHORN OAK - Deeply cut seven lobed leaf. Compact plant	.50¢
FAIR ELLEN - Nicely lobed, smooth, dark green foliage has very dark center. Compact well shaped plant. Very free blooming.....	.50¢
VILLAGE HILL OAK - Very similar to Fair Ellen but more deeply cut foliage. Very free blooming	.50¢
BEAUTY - Deeply lobed with dark center	.50¢
GIANT OAK - Large plant, attractive in large urns and especially useful in heavy make-up work	.50¢

<u>PELARGONIUM CRISPUM</u>	
The various forms of P. crispum are mostly lemon scented and all make excellent pot or garden plants. They are characterized by stiff, crinkly leaves, radiating closely from stiff upright stems. The illusion is that of a miniature juniper tree. Light lavender flowers.	
LEMON CRISPUM - Dark green crinkled leaves are crowded along stiff upright stems. Wonderful lemon fragrance.....	.50¢
FINGERBOWL GERANIUM - Smaller, denser close-growing foliage than Lemon Crispum. Otherwise plant growth is the same.....	.75¢
CRISPUM LACTIFOLIA (Very scarce, supply limited) Very pleasing fruity orange-lemon scent	.75¢
PRINCE RUPERT - Largest of the group and best known. Fine pot plant	.50¢
VARIEGATED PRINCE RUPERT - (French Lace) Small ruffled leaves with yellow edges. Compact growth The leading scented variety.....	.75¢
LIMONEUM - P. crispum limoneum. Extra strong lemon scent. Attractive rose-pink flowers.....	.60¢

<u>FRUIT & SPICE SCENTS</u>	
(Listed by scents which are strong and distinct)	
NUTMEG - P. fragrans - Small, round, wavy, grey-green foliage, semi-prostrate plant. Sprays of very tiny white flowers. Nice scent.....	.50¢
VARIEGATED NUTMEG - P. fragrans variegatum - Nice hit-and-miss, bright yellow variegated form of Nutmeg	.75¢
FRUITY - (Logee Fragrans) - Very rich fragrance of ripe fruit, bluish-green foliage, compact plant. Tiny white flowers. This is a hybrid of Nutmeg and Apple.....	.50¢
APPLE CIDER (Cody Fragrans) - Apple and Nutmeg cross with bright green foliage that is larger than Nutmeg.....	.50¢
PINE - P. fragrans turpenthia - Foliage and plant identical to Nutmeg. Fragrance is more turpentine than Pine.....	.50¢
GINGER - P. torento - Similar to and possibly hybrid of lime with larger less notched foliage. Large lavender flowers.....	.50¢
LIME - P. nervosum - Nice lavender flowers and saw tooth, foliage on attractive round low plant ..	.50¢
LEMON BALM - P. melissimum - Fast, coarse grower with strong lemon fragrance.....	.50¢

(continued)

FRUIT AND SPICE SCENTS

APPLE - P. Odoratissimum - Wonderful apple scent attractive bushy plant with round wavy leaves. Spray of many very small white flowers marked red..	.50¢
ALMOND - (Pretty Polly) Attractive light green plant with silvery pink flowers, dark crimson blotches, fair almond scent	.50¢
PEPPERMINT ROSE - (Old Fashioned Rose x Pungent Peppermint) Strong growth like Old Fashioned Rose but more deeply cut, greyish-green foliage, lemon peppermint scent, lavender flowers.....	.50¢
STRAWBERRY - (Countess of Scarborough) P. scarbos-ovice - Reddish green appearing upright plant. Small lavender pink flowers.....	.75¢
PFACH - (Gooseberry-Leaved) P. grossularioides - Hit-and-miss variegated, green and yellow foliage grows close to the stems of a compact upright plant. Very distinct rich odor. Pale orchid flowers.....	.60¢
PEPPERMINT * P. tomentosum - Trailing plant with large velvety very hairy grey grape like foliage. Tiny white flowers, wonderful mint fragrance	.50¢
CINNAMON - P. gratum - Similar to Attar of Roses	.50¢
ORANGE - (Citronella, Prince of Orange) P. citriodorum - Low bushy plant with strong Citronella scent. Viola-like orchid flowers, blotch crimson	.50¢
PUNGENT PEPPERMINT - (P. denticulatum x P. tomentosum) Deeply cut grey foliage on a fine large upright plant. Pleasing mint, white flowers.....	.50¢
JOY LUCILLE - P. tomentosum x P. graveolens - Large fingered leaves on a rangy very large plant Makes a beautiful large pot or plant in the garden. Clusters of small pink flowers. Mint scent	.50¢
WORMWOOD - (Southern wood leaved) P. obortanifolium. Feathery, tiny, silvery grey leaves on a low woody plant. Tiny white flowers	.60¢
COCOANUT - P. parviflorum - Trailing dark green leaves, crimson blooms	.60¢
AUSTRALIS - P. australis - Trailing plant with large zoned leaves. Small clusters of delicate lavender flowers. Spicy scent	.50¢

FLOWERING SCENTED

The varieties in this group are grown more for their flowers decorative effect or make up value than the fragrance of their leaves, which is often quite pungent.

PHASANT'S FOOT - P. viscosum - Strongly pungent. Dark green finely cut foliage. Leaf has the appearance of a Pheasant's Foot print. Pale orchid flowers.....	.50¢
--	------

(continued)

FLOWERING SCENTED

FERN LEAF - P. filicifolium - Same as Pheasant's Foot but more deeply cut. Nice compact plant. Small white flowers.....	.50¢
FERN LEAF NO. 2 - P. filicifolium - Same as Fern Leaf but more deeply cut mostly all ribs that are very narrow, very nice lacy effect Small white flowers.....	.75¢
LADY MARY - P. limoneum - Slightly lemon scented. Excellent pot plant which bears a profusion of pale orchid colored flowers with upper petals blotched crimson	.50¢
APRICOT (M. Ninon) P. scabrum - Supposedly apricot but smells more like the foliage of Apricot tree. Nice pot plant. Florets are brilliant crimson about one inch across and borne in heads of 5 or 6. Glossy green deeply toothed foliage.....	.50¢
MRS. KINGSLEY - P. rapaceum - Bright purple cerise flowers, low spreading plant. Gray-green very curly, deeply cut foliage suggests curly parsley	.50¢
ROLLINSON'S UNIQUE - Minty pungent. Very much like Mrs. Kingsley but foliage is less curly and flowers much larger and darker cerise-purple. Preferred for indoor pot plants.....	.50¢
CONCOLOR LACE - (Shottesham pet or Filbert) Filbert scented, low round light green plant with deeply cut foliage and a myriad of small brilliant red flowers, veined maroon.....	.50¢
BRILLIANT - Light centered, vivid cerise purple flowers. Dark green, pungent foliage...	.50¢
OLD SCARLET UNIQUE - P. fulgidum - Large gray-green plant with soft, deeply cut foliage. Masses of bright large red flowers, blotched black	.50¢
MRS. TAYLOR - P. ignescens - Small bright red flowers on a trailing plant. Deeply cut, crinkly foliage.....	.50¢
BRANDORDIANUM - P. graveolens x P. echinatum - Deeply cut leaves of silver gray. Attractive white flowers with purple markings. Pungent scent.....	.50¢
GLORINDA - Large bright rose-pink flowers cluster on a tall, compact plant. The largest flowering of the scented. Faintly encalyptus scented, it is supposedly a hybrid of P. denticulatum x P. domesticum.....	.50¢
SHRUBLAND ROSE (Shrubland Pet) Large, dark centered, glossy foliage on a large fast shrub. Masses of brilliant crimson flowers.....	.50¢

 Your choice of $\frac{1}{4}$ of any four (4) above groups \$5.00 postpaid
 (EXAMPLE - $\frac{1}{2}$ of any two (2) groups, such as: Six (6) Double Zonals and six (6) Scentedleaf, our selection each different and each labeled for \$5.00)
 Four (4) Double zonals and two (2) Single Zonal plants and one plant each of our six (6) other groups \$5.00 postpaid.

ZONAL LANDSCAPE SPECIAL

Twenty-five (25) plants for \$10.00 postpaid. Fifty (50) plants for \$18.50 postpaid.
 100 plants for \$35.00 postpaid. Orders must be for not less than 12 or 13 of one color; such as, Dark Red; Scarlet; Rose-pink; Light Salmon; Dark Salmon and White. Only labeled as to color.

TERMS OF SALE—Please read before ordering.

PAYMENT—Cash, Check or Money Order. No C.O.D. Orders accepted. Orders for less than \$2.00 cannot be accepted. This amount is for value of plants. Postage is extra.

SHIPMENTS are made year around by Insured Parcel Post, Special Handling. Prices of plants do not include postage. Postage must be included with orders at the rate given on the inside of back cover page.

SPECIAL DELIVERY costs 35c extra, add to the rates given on cover page. It is well worth the additional cost as it assures immediate delivery and may save a full day in transit time.

AIR PARCEL POST is fast but too expensive to use except for long distances on some of the more expensive plants. See rates on inside back cover.

SALES TAX of 2½% must be included on all orders delivered in Kansas.

YOUR ORDER IS INSURED which covers total loss of plants, damage due to unreasonable delay and damage due to rough handling in which plants are broken; but does not cover damage due to overheating or freezing unless it can be shown that there was negligence in handling in transit.

CLAIMS must be made promptly stating date of arrival and describing the condition of plants, also give names of varieties damaged or broken. We will then file claim for you and you will receive your damage claim check from the Post Office Department; or if you wish to file yourself we will send you the insurance and postage receipt which you have to have in order to file.

AS WE HAVE NO CONTROL OVER PLANTS AFTER THEY HAVE BEEN SHIPPED we accept no responsibility for damage or loss in transit or after delivery.

FOREIGN SHIPMENTS—Special arrangements have to be made for shipments out of the limits of the United States.

CANADIAN CUSTOMERS must get a Canadian Plant Importation address label (one for every thirty (30) plants) with your request for a Plant Importation number. Write your Department of Agriculture, Plant Protection Division, Ottawa, Canada.

SUBSTITUTION—If not advised otherwise, we will substitute only similar varieties. If you advise us not to substitute we will not do so. We attempt to keep a complete stock of the varieties listed in this catalogue. As there are many factors entering into the production of plants, occasionally we are unable to supply certain varieties ordered. When this does happen, we can usually supply equally good or even better varieties and we always give extra value. It is to your advantage as well as mine to allow substitution, so please give second choice. A refund is made if substitution is not authorized or suitable varieties are not available.

Schedule of amounts to include for postage.

These rates are for Insured Parcel Post, Special Handling.
For Special Delivery add 35c to rates given, per order. If your order is for less than 4 plants include postage for 4 plants.

CULTURE OF GERANIUMS

GROWING POTTED PLANTS

Repot our 2¼" plants in 3-inch pots. Do not use too large a pot as Geraniums bloom best when a little potbound. It is better to repot the plants, increasing the size of pot 1-inch each time. A 4-inch or 5-inch pot is usually large enough for indoor plants.

SOIL—Potting soil should be of a texture to give good drainage and aeration, but of sufficient body to allow firm potting. It should be slightly acid about PH 6.0 to 6.5. A good mixture is 3 parts of a good garden soil, 1 part peat moss and 1 part coarse sand. The soil should be slightly moist when potting. Allow at least ½-inch space at the top of the pot for watering. To the above mixture, add a 4-inch pot of Bonemeal or Superphosphate to a bushel of soil or a teaspoon to a 5-inch pot of soil.

LIGHT—During winter, geraniums need all the sunlight they can get, otherwise they will draw up and not bloom. Place as close to the glass as possible but not touching the glass with the leaves. When plants fail to bloom it is a sure sign they are not getting enough sun.

TEMPERATURE—The ideal temperature is about 60° F. to 70° F. during the day and 50° F. to 55° F. during the night.

AIR—Plenty of air is essential and a good airing during the winter is beneficial. The dry air of heated homes that is so hard on most plants is good for Geraniums.

WATERING—Plants should be well soaked and then allowed to become reasonably dry but not arid before watering again. More damage is done by under-watering than by over-watering. Young plants, some of the Fancy-Leaved and Dwarf varieties are most easily damaged by lack of water. The first sign is the lower leaves turning yellow and finally drying up. During heavy growth more water should be given and when this is done the plant should be fed.

FEEDING—Feeding is not necessary unless the plants have stopped growing which is indicated by duller green than normal and by small flowers. Although when plants are making heavy growth and taking lots of water plants should be fed. A good well balanced water soluble fertilizer such as Instant Vigoro, Ra-pid-Gro or Plant Marvel is good. Application should be made according to manufacturer's direction.

GROWING GERANIUMS OUTDOORS

SOIL—Geraniums will do well outdoors in any good well-drained garden soil that is not too rich. If soil is heavy to 3 parts soil add 1 part peat moss and 1 part sand.

SUN—Geraniums like lots of sun, but in the climates where the sun is intense shade during the hottest part of the day so as to produce much finer blooms.

WATER—The soil should never become completely dry. It is better to give one or two good waterings a week than some every day.

BED SPACE—For a beautiful bed allow 8"x8"; on strong growing varieties 12"x12". To get bushy plants pinch the tops of each plant.

FERTILIZER—Bonemeal or superphosphate mixed in the soil at the rate of 10 lbs. per 100 sq. feet will be beneficial. If plants need additional fertilizer some of the soluble plant food is good but do not overfeed. Geraniums do not require heavy fertilization.

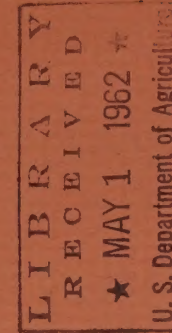

CONSERVING MOISTURE AND KEEPING PLANTS COOLER—A mulch of 1-inch peat is very important here in the midwest to hold the moisture and keep the soil cool. The best pots for use outside are glazed pots which hold the moisture much better. If they are not available painted pots will help. You can also keep your plants much cooler by covering the outside with aluminun foil which in itself is a good insulation but don't forget to punch a hole in the bottom for drainage. Potted plants put in a pot one or two sizes larger and Terra-Lite or peat moss put in between both pots is a good insulator to keep your plants cooler and conserve moisture. This is especially good for Fancy-Leaf and Dwarfs.

LADY WASHINGTON GERANIUMS

GROWING POTTED PLANTS INDOORS—Use the above culture for other geraniums except the following hints for better results.

Grow cool at night temperature of 40 to 50 degrees to grow a good stocky plant. A rank grown plant will hardly ever bloom. Make growth early with normal plant culture. Avoid using long lasting fertilizer which would keep the plant at rapid growth into the flowering season. Feeding should stop 10 weeks before flowering time, which is in the spring for the early flowering varieties, or until buds are well formed then feeding may be resumed. Keep plants on the dry side when buds are being formed as delayed blooms are usually caused by rank growth. At budding time keep the PH up to 6.0 to 7.0. Keep the nitrates low and don't force with heat and give all the light you can. To keep bloom from shattering don't remove blooming plants from a warm room into a cooler or drafty one. Cool grown plants seldom shatter.

When the weather is warm enough, plant outside and give plenty of room as they will develop into large plants and use culture of other geraniums.
